

AutoGate Terms

Version: 11.12.24

1. AutoGate Terms

carsales.com.au Pty Ltd ("carsales") and its group companies provide access to AutoGate software ("AutoGate") to dealerships and other businesses ("Subscribers"). AutoGate is only available to Subscribers who have been directly authorised for access by carsales. You must not access nor use this software unless:

- a) Your employer or Your dealer principal is a Subscriber that has a current and valid agreement with carsales for the provision of AutoGate;
- b) You have been issued with a unique user ID and password; and
- c) You are accessing AutoGate and services via AutoGate as an authorised representative of the Subscriber.

As an AutoGate user ("You"), You agree to abide by the terms and conditions of the Master Agreement and any relevant Product and Services Schedule ("PSS") signed by the Subscriber. Please contact Your dealer principal or employer if You do not have access to these agreements for Your dealership or business. Unless defined in these AutoGate Terms, the capitalised terms have the meanings set out in the Master Agreement and PSS. In the event of any inconsistency, the documents are to be interpreted in the following order with the first listed document taking precedence; (1) PSS, (2) Master Agreement and (3) AutoGate Terms. You also agree to the carsales [privacy collection statement](#) and [privacy policy](#).

You must not authorise or allow any third party to:

- a) use your unique user ID or password;
- b) use any automated process of any sort to query, access or copy any material accessed through AutoGate;
- c) transfer, export or remove any Leads from AutoGate without the prior written authorisation of carsales, which may be withheld by carsales in its sole discretion. Prior written authorisation of carsales will only be given in circumstances where carsales has a commercial arrangement in place with the relevant third party to facilitate secure transfer/export of Leads via API integration. Where carsales grants You this permission, it may impose any conditions it reasonably deems appropriate;

Nor must you directly do any of the activities listed at (b) and (c) above. For the avoidance of doubt, carsales will not provide an export of Leads to a Subscriber via CSV file or similar, or allow any other method of transfer, exportation or removal of Leads from AutoGate, other than as permitted under clause (c) above.

A breach of these AutoGate Terms may result in carsales suspending or terminating the Subscriber's access to AutoGate with immediate effect.

2. Item Publication Requirements (including pricing)

1. Your dealership or business must be a carsales Subscriber in order to publish Listings to the carsales Network or to access AutoGate.

2. All Item Listings must:

- a) Be physically in stock and on the seller's premises for immediate sale and delivery, except brand new items available for order and boats where the ordering requirement must be clearly stated;
- b) Include the correct and accurate selling price (including, for all used and demo vehicles, on road costs);
- c) Display photographs of the Item for sale only (which must adhere to the carsales Digital Image Policy set out below);
- d) Where applicable, include the Item's:
 - Unique stock number (Your own reference);
 - Make, Model, Series and Badge details;
 - Chassis identification number, for example VIN or HIN number ('TBA' is not acceptable);
 - Correct and accurate odometer (kilometres) or hours;
 - Actual exterior colour (this field must not be used for anything else);
- (e) Contain an accurate description of any options which apply to the Item (either non-genuine or factory fitted);
- (f) If required (either by law or requirement of an OEM), contain the registration number / licence plate number; The registration plate may appear in images and in the appropriate field in the description. carsales may in its absolute discretion blur registration plates in images in order to help prevent illegal number plate cloning;
- (g) Not contain any content which breaches applicable laws (for example, content likely to mislead or deceive consumers) or third party intellectual property rights; and
- (h) Not make any reference to carsales' commercial terms with the Subscriber (e.g. Lead fees) or contain any other derogatory comment regarding carsales' websites.

The dealer or carsales may obscure registration plates in images. If the dealer uses an alternative plate in an image, carsales will only permit such an alternative if; (i) it does not appear (in carsales' reasonable opinion) that it may be a

legitimate registration plate of any state in Australia, and (ii) it is free from branding or identification of the dealer or location in any way. By way of example, a cosmetic plate bearing the initials of the dealership will be deemed branding and will be removed from the site.

For new cars that are identified by the OEM in carsales' VIN-telligence database as "aged" (i.e. unsold for a particular period), the price inputted by the Subscriber will be displayed in the relevant Listing. For cars identified by the OEM in the VIN-telligence database as 'non-aged' (i.e. brand new cars in stock), the relevant Listing will display the phrase "enquire for price" together with a secondary "indicative drive away" price either provided by the OEM or estimated independently by carsales/Redbook.

Dealers will not be involved in determining any "indicative drive away" prices, however dealers should contact carsales if they believe there has been an error in the categorisation of vehicles as either 'aged' or 'non-aged' or if there has been an error or omission in the description of the options which apply to the vehicle. carsales is not, and will not, be a party to any agreements or interactions between OEMs and Subscribers about the advertising of new cars.

carsales may, acting reasonably, edit Listings - including to add pricing information (for example indicative drive away price, estimated "excluding charges" price or price indicators), standard vehicle features, video content approved by OEMs and third party advertisements (for example for vehicle finance). You must notify carsales immediately if You become aware that any of this added information is inaccurate, misleading or prohibited under any agreement You may have with a third party.

Where You pay per Listing and either: (i) modify a key detail of an Item after publication (e.g. make, model, year, badge, series) and this results in a change in the Item's allocated Redbook code (vehicle identification), or (ii) exceed any lead cap contained in your Listings service PSS, You will be charged for a second Listing. In the case of modified vehicle details. carsales may in its discretion issue a credit if notified within 24 hours of the original Listing that a genuine mistake was made.

Please see Your PSS for further restrictions on the material You can include in an advert.

3. Branding on carsales Network sites

To assist in making advertising accountable, no branding of any kind is permitted on the sites owned and/or operated by carsales ("carsales Network"), other than in respect of Brand New Cars in Stock or as otherwise confirmed by carsales in writing. In the case of Brand New Cars in Stock, carsales may include a dealer's name, address and franchise logo in the Listing and Subscriber grants carsales a sublicense to use its franchise logo for this purpose. This must be the only reference to such information within the Listing and Subscribers are prohibited from including the dealership name(s), address, location, phone number(s), email(s) or website(s) in photographs or comments which appear anywhere on the carsales Network sites.

You must not use key words within the comments of an advertisement that make reference to a vehicle/Item other than that being advertised ("key word spamming"). Key word spamming includes (but is not limited to) references to makes and/or models or vehicles other than the make/model in the Listing and references to functions or features which an Item does not have.

To prevent unauthorised branding, the carsales Network has in place systems which automatically or manually detect and remove unauthorised dealership name(s), phone number(s), website(s) or email(s) from dealer descriptions or comments, leaving the remaining comments intact. This system will also block any images (e.g. photographs of signage) that contain any of the above contents. AutoGate users will continue to see original comments and images in the 'Edit Inventory' pages of AutoGate; however, browsers will not see any unauthorised branding in the finished and published Listing.

You must not enhance photos through the use of distinguishing borders. If Subscribers ignore requests to remove branding, prohibited enhancements or keyword spamming from comments or photos or repeatedly include such elements in adverts, Listings may be blocked from browser view until such time as those elements have been removed. carsales may also take action to terminate the Subscriber's relevant Master Agreement and/or relevant PSS. For more information, please refer to carsales' Digital Image Policy below.

4. carsales' Digital Image Policy

1. Where photographs are included in Your advert, they must accurately represent the advertised Item and picture the advertised Item only.
2. It is Your responsibility to ensure that photographs are free from unauthorised branding and/or enhancements as outlined in Section 3 (Branding on carsales Network sites), including any material which, in the reasonable opinion of carsales, identifies the location of the Item or the dealership.
3. Photographs must not include non-Item advertising material (such as references to finance or trade in services available) in the first 8 photos. carsales approved content (for example provided by an OEM) is permitted if incorporated from the 9th photo in relation to a Listing. Such material must not include any branding or material from which the Subscriber's location or identity may be ascertained.
4. You must provide photographs in formats acceptable to carsales, specifically JPEG or jpg format. The optimal resolution for photographs is 1280x800 pixels (subject to change).

5. You acknowledge that carsales may review and block, edit or remove from display photographs that do not meet the above specifications at any time without prior notification.
6. You acknowledge that carsales has a licence to publish and use the Subscriber's photos as agreed in the Master Agreement.

5. Lead Services

a) What is the carsales Lead Service?

carsales connects Subscribers with sale prospects ("Leads") based on a variety of enquiry types (which types may be modified in carsales' reasonable discretion from time to time):

1. Enquiries submitted by an Enquirer using the online enquiry form provided on the Item detail page of Your carsales Network Listing.
2. Enquiries about new cars which may originate from a 'generic' or 'virtual' Listing on the carsales Network which displays a brand new car/Item which may or may not be in stock at Your dealership, but is available to order.
3. Enquiries made by an Enquirer phoning Call Connect, which is a telephone number provided by carsales and published on the used, demo and brand new in stock vehicle/Item details pages throughout the carsales Network.
4. Enquiries made by an Enquirer using the SMSConnect service, which is a service by which Enquirers can send an SMS message to a telephone number provided by carsales by using a click button whilst viewing a vehicle advert on mobile versions of the carsales Network website or via the carsales App.

Note: CallConnect Leads are recorded and stored in AutoGate for coaching and training purposes (unless a dealer elects not to have those call recordings made available in AutoGate). It is the responsibility of the Subscriber to notify all employees who may be in receipt of CallConnect Leads that their calls are being recorded. All dealer recipients of CallConnect Leads should ensure that they record the prospect's contact details received on any call and promptly enter those details into AutoGate.

Please note that Leads are only accessible to a Subscriber while it has an active AutoGate Account.

For details of Your specific Lead Services refer to Your Subscriber PSS or contact Your Account Manager.

b) When is a Lead chargeable?

carsales will charge You for prospects, known as Leads, in accordance with Your subscription PSS. Unless otherwise stated in Your PSS or covered under the Lead Credit Policy below, each Lead is chargeable- including those from interstate Enquirers. carsales provides Subscribers with the ability to reach buyers anywhere in Australia. Prospects have the ability to search by state and to refine their search by "post code search" and "region" in order to understand that Your Item may be located some distance from where they live. An interstate Lead has specifically chosen Your Item from thousands listed and their enquiries should always be treated as genuine.

Form-submitted enquiries:

A Lead is chargeable if the Enquirer has submitted their details using the online enquiry form published on the Item Listing and carsales has transmitted those details to the Subscriber's AutoGate Account.

SMSConnect enquiries:

A Lead is chargeable if a correctly formatted phone number of the Enquirer is transmitted to the Subscriber's AutoGate Account.

CallConnect enquiries:

A Lead is chargeable if an Enquirer has telephoned CallConnect and:

- a call recording of at least 30 seconds is present, or
- a correctly formatted contact phone number for the Lead has been delivered to the Subscriber's AutoGate Account.

References to "CallConnect" in this document include references to BikesalesConnect, BoatsalesConnect, CarsalesConnect etc (as applicable).

In rare circumstances, carsales may not be able to attribute a Lead to a specific Item. In such circumstances, the Lead will be charged per the Subscriber's most common Lead price tier for the previous billing month. Where the Subscriber has no prior billing month (eg new account) or received no Leads in the previous billing month, the unattributable Lead will be charged at the highest Lead price tier for the current billing month.

c) Lead Credit Policy

carsales will provide the Subscriber with Lead credits to be offset against future Lead charges where a Subscriber has been charged for any of the following:

1. If two Leads containing the details of an Enquirer with the same email address or phone number is sent to a

- Subscriber within a 2 day period (even though this may be due to a dealer not having contacted the prospect).
- 2. A Lead that contains only an incorrectly formatted phone number and email address (both of which are deemed by carsales acting reasonably to be invalid). Where either the phone number or email address is correctly formatted, no Lead credit will be issued.
- 3. carsales provides Lead credits for international Leads unless they are; (i) Leads for boats; or (ii) carsales otherwise determines acting reasonably that the Enquirer is genuine.
- 4. Subscribers will not be charged for CallConnect enquiries in the instance where the call recording is not available in AutoGate or where the Subscriber has elected not to have call recordings available in AutoGate and one of the following has occurred:
 - The Enquirer's contact number has not been recorded, or
 - A caller with a blocked number has entered an obviously fictitious (incorrectly formatted) contact number.

d) How does carsales present my Leads?

1. Leads are automatically delivered to the Subscriber's AutoGate account, irrespective of whether they are chargeable or may be eligible for a Lead credit. This includes SMSConnect Leads and CallConnect Leads (which, where available, will include the call recording, date, time, call duration and source number). SMSConnect Leads include the Enquirer's phone number and may include a URL for the relevant Item and/or a message from the Enquirer.
2. All Leads are reviewed using an extensive set of guidelines. Non chargeable Leads are identified prior to invoicing where possible. The number of Leads is included on the Subscriber's monthly invoice.
3. Where 'enquiry arrival' notifications have been set up by the Subscriber, upon receipt of a Lead, carsales' system dispatches a 'Lead Alert Email' to the Subscriber's nominated email address/s (where applicable), but this notification system is not guaranteed. AutoGate should be regularly checked for new Leads to ensure a quick response to customers.
4. An optional SMS notification system is available (which may be for an additional charge if notified separately by carsales in writing). If the Subscriber opts into this functionality via AutoGate, upon receipt of a Lead, carsales' system dispatches an SMS to a nominated mobile number. This notification system is also not guaranteed and AutoGate should be regularly checked for new Leads to ensure a quick response to customers.

6. Drive Away Price (DAP) Calculator (Applicable to automotive only)

The DAP Calculator is an AutoGate tool developed to help dealers comply with the latest Clarity in Pricing legislation and to make calculating the price of advertised vehicles as effortless and efficient as possible.

The DAP Calculator has a two-way function. The DAP Calculator can be used to apply state government charges and add the specified dealer delivery charge to calculate the Drive Away Price (**Estimated DAP Price**). The DAP Calculator can also be used to deduct state government charges from a proposed Drive Away Price to calculate the Excluding Government Charges Price (**Estimated EGC Price**). carsales regularly monitors government charges across all states to ensure that the DAP Calculator is using the most up to date data.

The DAP Calculator is available in AutoGate, free of charge to dealers, and is set up to price both used and brand new cars in stock. Please speak to Your Account Manager for assistance.

It is important to note:

1. The Subscriber's state, for the purposes of applying state government charges, is based on the postcode supplied by the Subscriber.
2. Only users with the ability to "Edit" Items in AutoGate can access the DAP Calculator tool.
3. It is the Subscriber's responsibility to confirm correct pricing for their Items is being displayed.

DAP Calculator Terms

1. Use of the DAP Calculator in AutoGate is subject to the following separate terms and conditions below ("DAP Calculator Terms"). Using the assigned username and password constitutes acceptance of the DAP Calculator Terms by the Subscriber. The DAP Calculator is provided to the Subscriber on the basis that the Subscriber has agreed to the DAP Calculator Terms.
2. Where the Subscriber enters a value in the 'EGC Price' field in AutoGate, the Subscriber can use the DAP Calculator to calculate the Estimated DAP Price.
3. Where the Subscriber enters a value in the 'DAP Price' field in AutoGate, the DAP Calculator will automatically calculate the Estimated EGC Price. Any value entered by the Subscriber in the 'EGC Price' field will be overridden by the Estimated EGC Price where that price is displayed on the carsales network.
4. The Subscriber acknowledges that the values calculated using the DAP Calculator are indicative only, and the Subscriber must check the accuracy of all information contained in a Listing prior to publication, or in the case of an automated batch load, immediately after publication. The Subscriber is responsible for checking the accuracy of all information included within any part of the calculation and/or published Listing. The Subscriber must keep the information current at all times. The Subscriber acknowledges that the values calculated using the DAP calculator will be dependent on the individual customer's circumstances.
5. Without informing the Subscriber, carsales may reconfigure the DAP Calculator to take into account changes in government and other charges that occur from time to time. In the case of a rounding requirement (e.g. where the DAP Calculator calculates an amount with cents), the value produced via the DAP Calculator will automatically be rounded up rather than rounded down.
6. To the extent permitted by law, the Subscriber agrees that carsales will have no liability to the Subscriber under the DAP Calculator Terms or in connection with the DAP Calculator including liability for any loss or damage (direct, indirect, consequential, loss of profits or otherwise) the Subscriber may incur (including loss or damage arising from negligence or fault of carsales) in connection with the DAP Calculator and/or the DAP Calculator Terms.
